

## n-step example 2

### Exercise: Grid World

Compute 2-step  
SARSA

$$\alpha = 0.5$$

$$\gamma = 0.9$$

Update for  
Action 4:

$$G = 0.9^2 = 0.81$$

$$Q(s_{(1,2)}, E) = 0 + 0.5[0.81 - 0] = 0.405$$
